II. RESPONSIBILITIES OF THE CONTRACTOR

III. CONSTRUCTION SCHEDULE

Following award of bid, City and the City's Engineer will meet with the successful bidder to develop and submit a construction schedule for the total scope of work. City may also request successful bidder to develop and submit a construction schedule for phase of the project if applicable. The successful bidder will be required to complete the entire scope of work as outlined in Section I above within **450** calendar days after the date of the first written notice to proceed issued by the City. The work to be performed shall be commenced within ten (10) calendar days after the date a written notice to proceed has been issued to successful bidder by the City. Construction activity is allowed Monday through Friday, 7:00 a.m. to 7:00 p.m. Saturday and Sunday, 9:00 a.m. to 6:00 p.m., unless otherwise permitted by the Director of Public Works in compliance with the City's noise regulations.

VI. TRAFFIC CONTROL PLANS

Contractor will be responsible for installing and maintaining a Traffic Control Plan contained in the Construction Plans if applicable.

VII. SUBSURFACE UTILITY EXPLORATION

It is not represented that Construction Plans show all existing utility structures and infrastructure. It is the Contractor's responsibility to determine the depth, location and their existence which may conflict with the proposed construction by referring to available records, consulting appropriate municipal departments and utility Owners and by making necessary exploration and excavations. All investigative work will be done and all repairs required after completion of investigative work shall be performed by the Contractor at no additional cost to the project, unless otherwise stated in the contract documents. Whatever existing utilities, not indicated on the Construction Plans, present obstructions to grade and alignment of pipe, immediately notify the City and City's Engineer, who without delay, will determine whenever existing utilities are to be relocated, or grade and alignment of proposed pipe changed. When necessary to move services, poles, guy wires, decorative lights, pipelines, or other obstructions, the Contractor shall contact and coordinate and make arrangements with Owners of said utilities. The City will not be liable for damages on account of delays due to changes or adjustments made by Owners of privately owned utilities and faulty workmanship by Owners of privately owned utilities which hinder progress of work regardless of work authorized by the City or other entities. It is the Contractor's responsibility to install the proposed utilities and maintain proper clearances with all existing utilities and meet the regulatory requirements. Any damage to existing sprinklers or sanitary sewer service lines shall be repaired to the City's satisfaction at no additional cost to the project.

In the event a utility (shown or not shown on the plan drawings) including but not limited to gas, electric, telephone, cable, standard lighting and decorating lighting, petroleum or petroleum related pipelines is exposed due to excavation and is in conflict, the appropriate company shall be contacted by the Contractor. The Contractor shall make a concerted effort to the City's Engineer's satisfaction to identify the utility (if unknown) and avoid any conflict with the utility. The Contractor shall provide all the necessary documentation for the efforts extended by the Contractor in locating the utility. The documentation shall be either telephone conversation memos, letters, meeting on site and other coordination

efforts utilized to identify the utility or pipeline. The City's Engineer will review all the documentation provided by the Contractor. In the event of a conflict with the utility, and the City's Engineer concurs that the Contractor had made a concerted effort to avoid the conflict and in spite of his effort, the conflict cannot be avoided without the utility being relocated, the City will assist in coordinating the relocation efforts of the utility with the pertinent company. (The Contractor is still responsible for coordinating efforts with the utility or the pipeline company.) The Contractor during the period the utility is being relocated, will move his crew(s) to other areas at his own expense. The Contractor will not be due any compensation for delays or downtime resulting from the coordination and relocation efforts performed by the Contractor or the utility Owner due to the utility conflict. The Contractor may request additional time if the relocation effort substantially hinders his construction effort. No additional payment will be made. If the Contractor chooses to assist the utility or pipeline company in the performance of their work, he shall be doing that at his own risk. The City will not be responsible for costs incurred by the Contractor from providing such assistance to the utility or pipeline companies.

The Contractor is made aware and shall make provisions in his unit price bid to allow for changes in alignment (vertical and horizontal) of the proposed utility (storm, water, sanitary sewer or force main) and roadway during construction to avoid conflicts, conditions encountered in the field, and to expedite construction. The Contractor is made aware that the water line may be required to be installed at a deeper elevation than shown on the plan drawings to avoid conflicts and to maintain clearances with utilities. No additional payment shall be made for the increased installation efforts expended by the Contractor. The City will not be responsible for any claims for downtime costs resulting from such conflicts. If the change in alignment results in increased quantities of the pertinent item, the Contractor shall be paid at the established bid unit price in the Contract.

II. SCHEDULE FOR COMPLETION / LIQUIDATED DAMAGES / DELAYS

SCHEDULE FOR COMPLETION. Prior to starting Work, the Contractor and the City shall meet to develop a Construction Schedule for the Work pursuant to Scope of Work and Special Conditions contained in the contract documents. The Construction Schedule shall be signed by the Contractor and the City and become a part of this Contract. The Contractor shall submit any major revisions to the approved Construction Schedule as the Work progresses to the City for review. The approved Construction Schedule may only be modified upon the written approval of City. A written notice to proceed will be issued to the Contractor by the City for the Work. The Work to be performed under this Contract shall be commenced within ten (10) calendar days after the date the written notice to proceed for a particular street has been issued to Contractor by the City. LIQUIDATED DAMAGES. The parties acknowledge that adherence by Contractor to the approved Construction Schedule and times set forth herein for completion of the Project is essential to this Contract. It is agreed by the parties that the actual damages which might be sustained by City by reason of the breach by Contractor of its promise to timely complete the Work in accordance with the provisions hereof are uncertain and would be difficult to ascertain. It is further agreed that the sum of (\$1,000.00) for each day that completion of the Project or any portion of the Work is overdue according to the Construction Schedule would be reasonable and just compensation for such breach, and Contractor hereby promises to pay such sum as liquidated damages, and not as a penalty, in the event of such breach. Any liquidated damages shall be deducted from Contractor's final payment under this Contract.

DELAYS. The Contractor shall be entitled to an extension of time specified in the Construction Schedule under this Contract only when claim for such extension is submitted to the City in writing by the Contractor within seven (7) calendar days from and after the time when any alleged cause of delay shall occur; and then only when such extension of time is approved by the City. In adjusting the Contract working time for the completion of the Work, unforeseeable causes defined herein shall be taken into consideration. No allowances shall be made for delays or suspension of the performance of the Work due to the fault of the Contractor. Unforeseeable Cause is defined as:

- a) An act of God in the form of unusually severe weather conditions, including storms, flood, fire or similar event, that could not have been anticipated or guarded against and which materially affects the work site, including access or egress thereto; or
- b) A riot or war situation actually involving the site or actually preventing the Contractor from working on the site, but not including any situation involving suppliers off-site other than those essential suppliers as identified to City.

No event shall be deemed an Unforeseeable Cause for the purposes of this Contract unless it actually and directly necessitates a delay in the Work which could not be otherwise remedied by taking reasonably prudent steps, and the Contractor could not reasonably adjust the schedule of the remaining Work to deal with, make up for, or otherwise work around the delays resulting from the Unforeseeable Cause(s).

Notwithstanding any other term contained in the Contract Documents, no adjustment to working time shall be made if, concurrently with the equitable cause for delay, there existed a cause for delay due to the fault or negligence of the Contractor, his agents, employees or subcontractors; and no adjustment shall be made to the Contract price and the Contractor shall not be entitled to claim or receive any additional compensation as a result of or arising out of any delay resulting in adjustment to the working time hereunder, including delays caused by the acts or negligence of the City. Notwithstanding any other provision of the Contract Documents, all claims for extension of working time must be submitted in accordance with the terms specified in the Contract Documents, and no act of the City shall be deemed a waiver or entitlement of such extension.

III. CONTRACT PRICE

Compensation for Work satisfactorily performed hereunder shall be in an amount not to exceed the sum of _____ (\$_____). City shall issue progress payments in accordance with the terms of this Contract.

IV. PROGRESS PAYMENTS

Progress payments for Work completed shall be paid in the following manner: Percentage of completion for materials and labor satisfactorily completed on a monthly basis: ninety (90%) percent of amount billed with ten (10%) percent retained until the entire Contract is completed. Contractor shall furnish City with appropriate documentation evidencing Contractor's payment for all work performed or materials provided by subcontractors. If Contractor is unable to produce such documentation evidencing payment, City may withhold that portion of the payment due to such subcontractor(s), without penalty, until Contractor provides documentation evidencing to City that Contractor has paid all such costs and that there is no existing claim by such subcontractors.

The final payment request from Contractor shall include the release of ten percent (10%) retainage and shall be submitted to the City upon final completion and acceptance of the Work.

Release of Liens. A partial release of liens must be provided with each payment application. A final release of liens must be provided to the City by the Contractor for the entire Work prior to release of the final ten percent (10%) retainage.

V. GENERAL PROVISIONS

QUALITY OF WORK. All Work shall be completed in a workman-like manner to the satisfaction of City and in compliance with all codes, ordinances, and other applicable federal, state, and local laws. Contractor shall be responsible for initial core testing of the Work. However, if any section of the Work fails such core testing, Contractor shall be required to tear out and replace such failing sections of the Work at its sole expense any and all costs associated with retesting such failing sections of the Work. Upon satisfactory completion of all Work hereunder as determined by City and prior to payment of final invoice by City, Contractor shall provide City with a release of all liens and waiver of claims from subcontractors. Contractor's requirement to provide such release shall be a condition precedent to City's remittance of final payment under this Contract.

PLAN AND SCALE DRAWING. The Contractor shall utilize the construction plans and drawings furnished by City to complete the Work.

LICENSES REQUIRED. To the extent required by law, all Work shall be performed by individuals duly licensed and authorized by law to perform such Work. The City specifically prohibits the use of subcontractors without written authorization. In the event Contractor receives written authorization from the City to engage subcontractors to perform Work hereunder, Contractor shall fully pay such subcontractor and in all instances remain responsible for the proper completion of the Work hereunder.

CHANGE ORDERS. All change orders shall be in writing and signed by the project Engineer, City and Contractor and shall be incorporated in and become part of the Contract Documents.

INSURANCE. Contractor warrants that it has obtained and will maintain throughout the duration of the Work, insurance covering injury to its employees and third parties, including coverage for bodily injury and property damage resulting from, related to or arising out of Contractor's Work. Such insurance shall cover acts and omissions of Contractor, its employees, agents, and subcontractors. Contractor shall provide a certificate of insurance showing the City as additional insured and providing such types and amounts of coverage as required in the City's Specifications for the Work attached hereto as Exhibit "A". Such certificate of insurance shall provide that the City is to receive thirty (30) days written notice of cancellation.

PERMITS. Contractor shall at its own expense obtain all permits necessary for the Work to be performed.

REMOVAL OF DEBRIS. Contractor agrees to remove all debris and leave the premises in a clean condition acceptable to the City.

DAMAGES. Contractor shall make every reasonable effort to protect the work area from loss or damage. Any portion of the work area damaged by Contractor during the course of the Work must be repaired by Contractor at no additional cost to the City. Damages shall include, but not be limited to, any damage caused by the Contractor to fences, yards, shrubs, or open public spaces. Any repair work shall match the existing condition of the items and area damaged.

DISPUTE RESOLUTION. The parties agree that they shall first attempt to resolve disputes hereunder by the use of non-binding mediation.

WARRANTY. Contractor warrants all Work for a period of twenty-four (24) months following the date of final acceptance of the Work by the City.

TERMINATION. City may terminate this Contract upon ten (10) days prior written notice to Contractor.

TAXES. The Contractor shall pay sales, consumer, use, and similar taxes that are legally required when the Contract is executed.

SAFETY. The Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs, including all those required by law in connection with performance of the Contract. The Contractor shall promptly remedy damages and loss to property caused in whole or in part by the Contractor, its employees, agents, subcontractors, or by any other third party for whose acts the Contractor may be liable.

VENUE. The laws of the State of Texas shall govern the interpretation, validity, performance and enforcement of this Contract. The parties agree that this Contract is performable in Atascosa County, Texas, and that exclusive venue shall lie in Atascosa County, Texas.

INDEPENDENT CONTRACTOR. Contractor covenants and agrees that Contractor is an independent contractor and not an officer, agent, servant or employee of City; that Contractor shall have exclusive control of and exclusive right to control the details of the Work performed hereunder and all persons performing same, and shall be responsible for the acts and omissions of its officers, agents, employees, contractors, subcontractors and consultants and shall indemnify City from all claims and damages resulting from this Work; that the doctrine of respondent superior shall not apply as between City and Contractor, its officers, agents, employees, contractors, subcontractors and consultants, and nothing herein shall be construed as creating a partnership or joint enterprise between City and Contractor.

SEVERABILITY. The provisions of this Contract are severable. If any paragraph, section, subdivision, sentence, clause, or phrase of this Contract is for any reason held to be contrary to the law or contrary to any rule or regulation having the force and effect of the law, such decisions shall not affect the remaining portions of the Contract. However, upon the occurrence of such event, either party may terminate this Contract by giving the other party thirty (30) days written notice.

ENTIRE AGREEMENT. This Contract and its attachments embody the entire agreement between the parties and may only be modified in writing if executed by both parties.

CONTRACT INTERPRETATION. Although this Contract is drafted by City, should any part be in dispute, the parties agree that the Contract shall not be construed more favorably for either party.

SUCCESSORS AND ASSIGNS. This Contract shall be binding upon the parties hereto, their successors, heirs, personal representatives and assigns.

HEADINGS. The headings of this Contract are for the convenience of reference only and shall not affect in any manner any of the terms and conditions hereof.
